

8TH ANNUAL

2017 Photography Clinic

Saturday, February 18, 2017
The Center for Visual and Performing Arts
1040 Ridge Road, Munster, IN 46321

CLINIC SCHEDULE: 8:00am-9:00am Registration/Continental Breakfast
9:00am-4:00pm Presentation by Speaker Ed Post
12:00pm-1:00pm Luncheon

Our speaker Ed Post is a lawyer and retired circuit court judge residing in Grand Haven, Michigan. He teaches photography at Meijer Botanical Gardens in Grand Rapids, Michigan. Each year he leads field trips and lectures at the Summer Weekend of Photography sponsored by Southwest Michigan Council of Camera Clubs (SWMCCC).

Digital Photography-The Foundation for Mastery

We will look at the science of capturing a digital image and explore why it's important to know how your camera and computer capture and optimize images. Terms like ISO, tone, white balance, resolution, focal length, file format, and autofocus are among the many subjects explored and explained.

Light & Exposure-How to Find It, Fix It, and Record It

Light is the single most important element of any image. We'll examine the characteristics of light: Color, Quantity, Quality, and Direction. The idea of "Dynamic Range" is also explored. We'll answer the question of how to find good light, how to fix bad light through use of tools like filters, diffusers, HDR, and fill flash.

Composition-Moving from Pros to Poetry

In this segment we'll divide composition into two specific acts: the art of seeing photographically and the art of arranging the design elements in the frame. You'll learn how to make poetic photos, not simply record shots.

Digital Asset Management (DAM) - Manage Your Photos Like a Pro

Using Adobe Lightroom, we explore a comprehensive strategy for downloading, archiving, and cataloging images in a safe, efficient, and cost effective manner. This segment lays out a complete workflow for managing your digital photos in a way that will allow you to find any image in your collection in seconds, all while keeping your images organized and safe.
